Use he/she or one

- Use he/she or one together

- Do not just use he or she, if we don't have specific person.

- Don't not let limitation of language limit your thoughts.

- He/she can help you imagine, but one is simple and abstract.

- For other languages, it is same too. Use □/□ together or □□□□

- I should learn more language to separte he/she.
