

Commute

- I lived 2km from Jinfeng subway station. My office was in the Renfeng building in Tianhe district.
- From home, I would go to Jinfeng terminal, take Line 6 to Tianhe Coach terminal, and then walk 500m to the office.
- A Didi car cost around 60 CNY per trip. A Gaode car cost around 40 CNY per trip.
- The Night 68 Bus goes directly between home and the office, without needing to transfer to other lines.
- Parking costs around 16 CNY per hour in that area.
- My company had a hybrid working policy, requiring us to work in the office at least three days a week.
- Working in the office provides a great Wi-Fi or Ethernet connection to the internal network. Also, I can meet some colleagues, even if we are not in the same group. And I can order different meals to eat.
- Save energy during your commute to work on something that matters more. Or use your commute as a distraction to focus on something that is less painful.
